Paid Activities :

Y1 & Y2 Coding Adventures with ScratchJr. – Logix Engine – Monday 14:40 to 15:30

Coding is what makes it possible for us to create computer software, apps and websites. Your browser, your OS, the apps on your phone, Facebook, and this website – they're all made with code. Coding helps young people learn to think creatively, reason systematically, and work collaboratively — essential skills for life in the 21st century. With Scratch Junior your kids can program their own interactive stories, games, and animations — and share their creations with others in the online community.

Y1 to Y2 Chess – Chess Knowledge – Thursday 14:40 to 15:30

Chess classes for Year 1 and 2 students provide a solid foundation in the game's rules, develop critical thinking skills, and nurture a love for chess. The classes include a mix of instruction, practice, and interactive activities to engage and motivate young learners. Chess training for Year 1 and 2 students cover the basics of chess, including rules, piece movement, and capturing. They introduce chess notation, teach strategies and tactics, and include problem-solving activities. Students practise through games, receive feedback and analysis from instructors, and may participate in friendly tournaments. These classes aim to provide a well-rounded and engaging chess learning experience.

Y1 to Y2 Engineering Workshop – ETB – Friday 12:00 to 13:00

Engineering workshops are led by actual engineers from different fields. All projects are designed by our senior team that hold masters degrees in engineering. The students will be building an engineering-based project by going through the entire process from understanding a concept to designing and using different tools to execute their work. The workshops will help the students improve many of their skills such as critical thinking and problem-solving as well as learn more about the different fields of engineering. The classes don't use any ready-made kits to offer the students the freedom to be creative with their designs and enrich their understanding. Projects vary based on age and experience.
